Dianne, I talked with Larry H yesterday evening. Larry indicated that Randy Ruaro would be attending the meeting for the State and would be the only representative from the State. He also mentioned that it is his understanding that representatives from Sen. Murkowski and Rep. Young's office would be attending.

Do we have any confirmation on whether the Congressional or governors staff are attending?

Ken,

I received the following from my email contact in Chicken when I asked if there was an agenda:

"There is an agenda...to get to the bottom of why this took place in the manner that it did; who directed it; who was privy to the deal before it happened and how can we make sure that it never happens again? Sheldon Maier and David Likins (FortyMile) will be directing the meeting; it will not be an open forum of retribution, although I am sure that the EPA has some explaining to do."

Again, I think they don't have a rigid agenda because that's just not how they operate. It's more so the desired outcome they hope to receive from the meeting, and I truly believe it is well-intended.

If I can do any more information gathering or help you with logistics don't hesitate to call.

Thank you,
